

Product sheet AM111

A-solar Quartz Charger

This universal Quartz charger has an internal 1500 mAh Li-ion battery which can be recharged via AC-USB, but also through sunlight.

In addition to charging your mobile phone for example, this Quartz Charger is also suitable for charging batteries of different photo and / or video cameras. Place the battery of your camera in the Quartz Charger and it will charge automatically.

There may also be penlight batteries to be charged in a simple manner with this indispensable accessory. Ideal for traveling and during holidays, but also for everyday use.
